Inês Moreira
Informatics Engineer

Summary

Software developer with 2+ experience in frontend development. I've built responsive applications in React, Angular 4+ and collaborated also in AngularJS applications.
I am an organized person, watchful to details and have a critical and analytical thinking.
I also have a 4-year experience as an architect, but I decided to change my route and started a new career in Information Technologies in September 2016.

Professional experience

04/2021 – 12/2022
Software developer | Connectlime, Lisbon
- Migrate an AngularJS app to Angular 11, using Angular Material components;
